Enough to pay off their entire indebtedness in full. Therefore the tremendous importance of this sale to them. If they succeed it means their continuance in business. Precisely and Exactly What the Transvaal Gem Is.

It is the nearest approach to a diamond ever discovered. Is cleaned exactly like a diamond, in soap and water, alcohol or even ammonia. It is the hardest of all semi-precious stones, and will cut glass. Has no artificial backing, but for fire, life and brilliancy has no equal, and 'is absolutely ! warranted to retain its brilliancy and luster forever.

Why the People Flock Here.

Four years of steady selling right here on Olive street has demonstrated more clearly than anything else possibly could the reason why the people i want our goods at these bankrupt prices. We sell everything for what it is, and no representations are permitted that are not in strict accordance with
